

## It's time to make an upgrade to a system that stands above the rest

### BOOT

Zero screw, fully welded no gap design

Solid Aluminum construction

Thicker metal construction maintains shape longer, while staying malleable

No Holes, No Openings that will fail with extended use and bending

Full Plate Weld, on boot bottom to seal out debris

Revised shape accommodates Malleolar bone access

Two year Warranty Coverage

### PLATE

Zero screw, fully welded no gap design

Designed to help Eliminate Bio-buildup

Quicker and easier cleaning and sterilization process
