

MPR Capsule Retractors

MPR1054-01

MPR1054-02

Description

Retractors used during hip orthopedic surgeries to retract the acetabular capsule and expose the acetabulum. Features include rounded tips for easy tissue retraction while protecting the patient, and a hole in the handle for attaching weights. MPR Orthopedics offers two different capsule retractors, for each hip.

All MPR Orthopedics retractors are made from solid stainless steel for durability, longevity, and easy cleaning/sterilization, and are designed for optimal performance with minimal risk of trauma.

Made in USA.
