

MPR Forked Retractor

MPR230786002

Description

A retractor for use during shoulder arthroplasty procedures for retracting the deltoid muscle and other soft tissues. Features include a fenestrated blade, a forked tip to ensure a secure grip on tissue, and a hole in the handle for attaching weights.

All MPR Orthopedics retractors are made from solid stainless steel for durability, longevity, and easy cleaning/sterilization, and are designed for optimal performance with minimal risk of trauma.
