

MPR K-Wire Tractors

MPR-121-02

MPR-121-03

Description

Also known as traction bows, Kirschner bows, or Kirschner extension bows. Instruments for holding K-Wires in tension during orthopedic procedures. The serrated clamps at the ends of the arms are designed to ensure a firm grip on the wire, and the handles feature five holes for attaching hooks for suspension. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Comes with 3 hooks.
