

MPR Moore T-Extractors

MPR-6839-2-060

MPR-6839-2-080

Description

Corkscrew-style extractors for removing the femoral head during hip arthroplasty procedures. The T-shaped handle is ergonomically designed for a secure, comfortable grip, and the threaded tip drills directly into the femoral head, allowing for removal without affecting nearby tissue. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Made in USA.
