

MPR MIS LIT Offset Double Point Retractors

MPR-7804-103

MPR-7804-104

Description

Retractors used during total hip replacement procedures using the Anterolateral Approach technique to retract the femur posteriorly. The design features a 90° curved blade, a double-pronged tip for a secure grip with square points to protect the patient, and two holes in the handle for attaching weights. A light pipe can also be attached via a groove on the underside and a hole in the blade.

All MPR Orthopedics retractors are designed for optimal performance with minimal risk of trauma. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Product Specifications

#	DESCRIPTION	LENGTH	BLADE L.	BLADE W.	SHORT TIP*	LONG TIP*
MPR-7804-103	Left Twisted	14.97" (38cm)	5.51" (14cm)	1.25" (32mm)	0.71" (18mm)	1.08" (27.5mm)
