MPR Mikhail Collateral Ligament Retractor

MPR-86-9054

Description

A retractor used during knee-related procedures to protect the medial and collateral ligaments. Its slender, single-pronged tip is designed to maximize precision and access, with a rounded point, and the handle features a pair of holes for attaching weights.

All MPR Orthopedics retractors are designed for optimal performance with minimal risk of trauma. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Made in USA.
