

MPR Picket Fence Leg Preppers

MPR611

MPR611B

Description

Limb positioning devices for use in patient prepping for leg surgery. These preppers attach easily to the operating table via either a single $\frac{5}{8}$ " Clark socket, or a pair of blade-style sockets (see *PRODUCT SPECIFICATIONS*), and can be easily raised and/or lowered to achieve the required height.

MPR Orthopedics offers two different picket fence preppers, for either one or both legs. Both are made from solid stainless steel, with a double urethane coating, for durability, longevity, and easy cleaning/disinfecting. Made in USA.

Product Specifications

#	DESCRIPTION	HEIGHT	OPERATIVE HEIGHT RANGE	WIDTH	ATTACHMENT
MPR611	Single	30" (76.2cm)	4"–27" (10.16cm–68.58cm)	19" (48.26cm)	Clark Socket
MPR611B	Double	33" (83.82cm)	4"–30" (10.16cm–76.2cm)	36" (91.44cm)	2 Blade Sockets

Cleaning & Maintenance

Between uses, wipe positioner down with a hospital- and/or EPA-approved germicide, or a **10:1** bleach solution or quaternary ammonia solution, then rinse and let dry. Avoid using phenolic cleaners or abrasive materials.
