MPR Ortho Hand Starter Rasp

MPR-7803-65

Description

A rasp for use in implant alignment to shape the medullary canal, smooth bone surfaces, and initiate canal entry. The handle allows for multiple grip options and features two finger-holes for precise control and the curved rasping tip features a rounded end for smooth entry into the medullary canal. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Made in USA.
