MPR PCL Tibial Retractor

MPR-86-9050

Description

Also known as a “Pickle Fork” retractor, a retractor for use during knee procedures to retract the tibia away from the femur. Its two-pronged tip allows it to fit into the femoral condylar notch while straddling the posterior cruciate ligament, and the handle features three holes for attaching weights.

All MPR Orthopedics retractors are designed for optimal performance with minimal risk of trauma. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Made in USA.
