MPR Reusable Stainless Steel Finger Traps

MPR3280

MPR3285

MPR3290

Description

Finger traps for upper extremity traction made from stainless steel wire, allowing them to be cleaned and sterilized between uses to help cut down on single-use product waste. It is recommended that the patient's fingers are wrapped in sterile drapes before application to reduce skin trauma.

MPR Orthopedics offers three different sizes. All are made from solid stainless steel, ensuring durability and longevity, and allowing for easy cleaning/sterilization.

Made in USA.
