MPR Single-Use Carpal Tunnel Knives

10030

10030-15

Description

Single-use knives for cutting into the wrist to access the carpal tunnel. The razor-sharp blades are set at a 65° angle to eliminate the need for any sawing motion that may lead to loss of control and double-shielded to prevent any unintended damage to the nerves and tendons. Two different models are available, with either a straight or 15°-bent design. Used in conjunction with the MPR Carpal Tunnel Retractor (10031; *sold separately*).

Intended for single use *only*; safely dispose after use.

Made in USA. Sold in packs of 10.
