MPR Blount Knee Retractor

MPR248500000

Description

A retractor used during knee procedures to retract the surrounding tissue such as tendons and ligaments. The broad leaf-shaped blade and long, narrow tip provide deep access and precision while enabling safe retraction of larger amounts of tissue, and the deeply curved, hook-shaped design maximizes leverage.

All MPR Orthopedics retractors are designed for optimal performance with minimal risk of trauma. Made from solid stainless steel for durability, longevity, and easy cleaning/sterilization.

Product Specifications

Overall Length	7” (17.75cm)
Handle Length	4.94” (12.55cm)
Handle Width	0.59” (1.5cm)
Blade Length	1.02” (2.6cm)
Blade Width	0.69” (1.75cm)
Tip Length	1.18” (3cm)
Tip Width	0.3” (0.75cm)
