MPR Carpal Arm and Hand Surgery Table

MPR330

Description

An arm and hand table for upper extremity procedures, especially procedures involving the hand and wrist. Its legless design and radiolucent phenolic construction make it perfect for C-Arm imaging, and are optimized for strength and rigidity. Attaches to all US OR table rails via a pair of specialized clamps.

Comes with a set of clamps and a 2”-thick reusable radiolucent pad (MPR312, *second picture*).

Made in USA.
